--SEE OFFICE ACTION ON THE FOLLOWING PAGES--

Applicant's election of Group II, citric acid and a tablet in the reply filed on 12/1/03 and 7/6/04 is acknowledged. Because applicant did not distinctly and specifically point out the any errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 18-53 are rejected under 35 U.S.C. 102(b) as being anticipated by EPO 396335 (EPO '335).

EPO '335 teaches tablets comprising an antibiotic (page 2, lines 1-3) amoxycillin is specified (page 2 line 52). An effervescent couple is disclosed (page 2 line 30). Citric acid and calcium carbonate are specified (page 3 lines 3, 5). A ratio of acid to base of 4:3 – 1:3 is disclosed (page 3, lines 7-10). A 250 mg tablet is specified (page 3 last line). 0.5-20% acid and 0.5-30% base is specified (page 3 lines 17-20).

Claims 19, 38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 16, 38 "Low" is vague; it is subjective.

No claims allowed.

FR 2793685, in French, was not considered on PTO form 1445 filed 3/11/03 because neither a summary, English abstract, translation or PCT search report was provided.
